

## Ford Transit Medical Ambulance Gasoline 8 Seats Ford Transit Box Ambulance

Our Product Introduction

for more products please visit us on [vehicle-automobile.com](http://vehicle-automobile.com)

### Basic Information

- Place of Origin: China
- Brand Name: Ford Transit Medical Ambulance Gasoline 8 seats 4×2 (III)
- Model Number: Ford Transit Medical Ambulance Gasoline 8 seats 4×2 (III)
- Minimum Order Quantity: 1 vehicle
- Price: 30000-50000dollar
- Packaging Details: entire car
- Delivery Time: 5-8week days
- Payment Terms: T/T
- Supply Ability: 1000 vehicle

### Product Specification

- Features: Advanced Medical Equipment
- Capacity: Multiple Patients
- Communication System: Two-Way Radio
- Lighting: High Visibility
- Medical Equipment: Advanced
- Navigation System: GPS
- Power Source: Electricity
- Product Name: Medical Emergency Ambulance
- Range: Long Distance
- Safety: Highly Secure
- Size: Large
- Speed: High Speed
- Storage Space: Ample
- Type: Emergency Vehicle
- Highlight: **Ford Transit Medical Ambulance,**

Vehicle technical parameters:

1 Body size mm mm: 5341×2032×2445 (length× width× height)

2 wheelbase mm: 3300

3. The total weight of the fully loaded vehicle is kg: 3300.

4 Vehicle kerb mass kg: 2320

5 suspension system: McPherson suspension in front and leaf spring suspension in rear are independent.

6 Minimum ground clearance mm: 148

7 Minimum turning radius M: 6.15

8 fuel type: gasoline

9 Tank volume (L): 80

10 engine upright four-cylinder EFI

11 displacement ml: 1997

12 rated power kw (HP)/rpm: 162

13 Track (front/rear) mm mm: 1736/1720

14 Axle load (front/rear) kg kg: 1455/1845

15 Front suspension/rear suspension MM mm: 1014/1027, 1014/1207

16 Emission standard: GB18352.6-2016 National VI

Our Product Introduction

17 drive mode front drive  
Transmission: 5-speed manual transmission  
19 top speed km/h: 156  
20 tyre size model 215/65 r16c  
21 Brake system front disc and rear disc  
22 rated passenger (including driver) 7  
Main configuration of vehicles  
23 All-metal closed load-bearing body  
24 ABS+EBD, driver's seat (main) airbag  
Central lock, remote control key, front electric doors and windows, multi-function steering wheel.  
Original system of 26 cab medical cabin  
27 black bumper, high brake light  
28 spare tire, spare tools  
30 Intelligent Vehicle Navigation  
Advanced configuration: 12.3-inch LCD instrument, 12.3-inch central control panel, endoscope, 6-way adjustment of driver's seat, driver's seat, steering wheel, exterior rearview mirror, air conditioner, reversing image, cruise control, driver's airbag, tire pressure display, front electric window, rear double door, wide-open side sliding door on the right, stepping on the right sliding door, hydraulic power steering, and front and rear disc braking.  
Warning light alarm system: the cab is equipped with alarm, the warning light control button, and the left and right sides are equipped with LED flashing lights.  
Central power distribution system: power socket, 1000W intelligent inverter system, high-energy maintenance-free battery, which can provide 220V and 12V power.  
Medical interior decoration: environmental protection materials are adopted, and multiple medical lockers are installed.  
Air conditioning and lighting system,  
The central oxygen supply system is installed at the left rear side of the medical cabin: 2 10-liter oxygen cylinders, 2 German oxygen terminals, 1 graduated flow humidifying bottle and 1 hose connector.  
A new forward and backward ventilation system is installed at the top of the medical cabin.  
Ultraviolet delay disinfection lamp,  
2 pieces of hidden infusion hooks in medical cabin.  
A front-rear intercom system with the cab is installed at the middle partition of the medical cabin.  
Equipped with an automatic boarding stretcher.  
Equipped with a shovel stretcher.  
Equipped with a stair stretcher.  
Install omni-directional safety handrails.
